

Please contact the IT Officer at [it@insight.org.au](mailto:it@insight.org.au) to be put in touch with this placement participant for further information.

**Placement**

Great Ormond Street Hospital, London - Paediatric Cardiology

**Dates of Placement**

08 January 2018

**The Application Process**

Application form provided by the hospital with 2 references.

**Placement Structure / Typical Day**

Mostly clinic, some time spent on the ward and in the catheter lab or in the day surgery suite. Very self directed - given a timetable and could pick and choose what you attended. Usually had half days and spent the rest of the time touring.

**Level of Flexibility on the Placement**

Very flexible.

**Expectations and Assessment**

No assessments.

**Skills Gained**

Physical examination skills.

**Placement Highlights**

Interesting patients, variety, high acuity patients.

**Challenging Aspects of the Placement**

Very self directed. Technically an 'observership' so actual patient contact depended on consultant.

**Other Activities**

-

**Would you recommend this placement to someone interested in global health?**

Not very different to placement in Australia.
